Babies In the Womb Don't Matter to Xochitl Torres Small

Radically Pro-Abortion

Xochitl Torres Small supports abortions up to the moment of birth and wants taxpayers to pay for them.¹ She even opposed legislation to protect survivors of botched abortions.² She's too radical for us!

Radically Anti-Life

Not only does Xochitl Torres Small support abortion, but she used to work for Planned Parenthood herself.³ Xochitl is as extreme as you can get on abortion. Our children aren't safe with her in Congress.

Radically Out of Touch

New Mexico is a pro-life state where we value faith and family. We believe all lives are worthy of protection. Xochitl Torres Small does not. She's clearly out of touch with New Mexico values.
